

# MEDmobility MEDmobility Education Day

**September 26, 2025**

Friday 8:00 a.m. to 4:00 p.m.

(Doors 7:30 a.m.)

Delta Hotel South

Edmonton

## MED25 Invitation

### Ryan Cavender

**Mobility Algorithm: Clinical Considerations for Mobility Base and Seating Function Selection**

This presentation will examine the algorithmic approach to mobility base and power positioning component selection while also discussing key objective measures and how those measures lead to equipment recommendations.

**The Case for Wheels: An Overview for Selecting the Clinically Appropriate Power**

This presentation will provide the participant with an overview of the information they will need to assist in the selection of the correct power base for the individual's specific needs.

### Tanya Falkenberg

**Tilting the Odds: Manual Tilt to Improve Rehabilitation Outcomes**

This presentation will explore the research supporting the use of tilt. Topics will include: how changes in seat angle affect posture and pressure distribution, seat height and angle characteristics that impact self-propulsion, the relationship between independent mobility and incidence of pressure ulcers, and how changes in seat angle can influence activities of daily living.

**AADL Update - Speaker TBA**
